**Northeast Rural Services, Inc.**

**Certification of Compliance with Applicable Service Quality Standards and  
Consumer Protection Rules**

Oklahoma Administrative Code, Title 165, Chapter 55 – Telecommunications, requires an ETC to comply with the requirements of this Chapter.

The Company certifies that it complies with the applicable requirements which include billing disputes, service standards, supported services, installation intervals and customer complaints.

The Company also certifies that it provides adequate and efficient service to every served end-user for which the ETC receives universal service. It, also, certifies that it shall install and maintain its system so as to render safe, efficient, and continuous service, and shall keep of its equipment and facilities in a good state of repair.

In addition, the Company has a process in place for protecting the privacy of customer information.

## **Northeast Rural Services, Inc.**

### **Functionality in Emergency Situations**

Oklahoma Code 165:55-113-22 (Emergencies) and -23 (Adequacy of Service) states that the provider shall ensure that there is a sufficient operating force and, where appropriate, sufficient equipment to serve its end-users. The provider shall make adequate provision for emergencies in order to prevent interruption of continuous telecommunication service throughout the area it serves. Central office(s) shall have an emergency power source, either on the premises or available on short notice.

Following is how the company complies with the codes:

#### **Back-Up Power**

All of the Company's core equipment is stored in a datacenter with redundant power, cooling, UPS's, and generators. Its remote POP sites have backup battery with run times long enough to deliver portable generators in the event of a power outage in a remote POP. The datacenter currently has a three hour run time on batteries. The generators should turn on in the event of any major power loss and has enough onsite diesel for multiple days of run time.

#### **Rerouting of Traffic around Damaged Facilities**

Each remote pop site has redundant fiber feeds in a ring configuration in the event of a fiber cut. The traffic for both voice and broadband will be routed to the un-damaged fiber/infrastructure. The core routers are also being fed by redundant feeds from separate providers from different locations.

#### **Traffic Spikes**

The Company has plenty of capacity for major traffic spikes. It currently has double the capacity needed to provide services to our current customer base.

BOLT Fiber Optic Services will proactively continue to contact the Tribal Authority to set up meetings. They will do this both verbally and with written correspondence.

**Northeast Rural Service, Inc. “BOLT”****Lifeline Terms and Conditions**

Northeast Rural Service, Inc. “BOLT” offers Lifeline program-supported service to qualified low-income residential consumers for one telephone line or qualifying broadband internet access service (BIAS) per eligible household. The Lifeline program provides discounts to eligible low-income consumers to help them establish and maintain telephone or qualifying BIAS service. Eligible consumers can receive \$9.25 per month in discounts. In addition, the Federal Universal Service Charge is not assessed to consumers participating in Lifeline. Toll Blocking prevents the placement of all long distance calls for which a subscriber would be charged. Toll blocking is available to eligible consumers at no cost. Also, by choosing this option, consumers are usually not charged a deposit.

**Lifeline Program Eligibility Information****Program Based Eligibility**

Consumers are eligible for Lifeline if they, one of their dependents or their household participate in one of the following qualifying assistance programs:

Federal Public Housing Assistance (Section 8)  
 Supplemental Nutrition Assistance Program (SNAP)  
 Medicaid  
 Supplemental Security Income (SSI)  
 Veteran's Pension and Survivor Benefit

Lifeline applicants must present documentation demonstrating eligibility either through participation in one of the qualifying federal assistance programs or through income-based means.

Acceptable documentation of program-based eligibility includes: current or prior year's statement of benefits from a qualifying state, federal or Tribal program; notice letter of participation in a qualifying state, federal or Tribal program; program participation documents; or another official document evidencing the consumer's participation in a qualifying state, federal or Tribal program.

**Income Based Eligibility**

In addition, consumers are eligible for Lifeline if their household income is at or below 135% of the federal poverty guidelines.

### **Tribal Eligibility**

A subscriber who lives on Tribal lands and is an eligible resident of Tribal lands is eligible for Tribal Lifeline service or Tribal Link Up if the subscriber, one or more of the subscriber's dependents, or the subscriber's household participates in any of the above-listed qualifying assistance programs or one of the following Tribal-specific federal assistance programs: Bureau of Indian Affairs General Assistance; Tribally Administered Temporary Assistance for Needy Families; Head Start (if income eligibility criteria are met); or the Food Distribution Program on Indian Reservations (FDPIR). Tribal subscribers may also qualify if the household income is at or below 135% of the Federal Poverty Guidelines.

### **Lifeline Program Service**

BOLT's Voice Lifeline service includes unlimited local minutes-of-use within the toll-free calling area. BOLT's Voice Lifeline Plan does not include any free minutes-of-use for toll. Toll is billed at the standard toll rate depending on which interexchange carrier the consumer subscribes to for toll service. As part of the Lifeline service, Toll blocking is available to eligible consumers at no cost.

BIAS minimum speed and usage allowance standards are required for the service to qualify.

Lifeline recipients may transfer the Lifeline benefit to a new company once every sixty days for telephone service and once every 12 months for BIAS.

### **Rates**

Subscribers may receive the Lifeline credit on any type or grade of local service, including bundled services that are normally offered by BOLT. Advertised rates do not include any applicable taxes or surcharges.

### **Recertification of Lifeline Eligibility**

Lifeline recipients are required to recertify their eligibility annually. Failure to properly recertify a recipient's continued eligibility for the Lifeline program will result in termination of the Lifeline recipient's monthly Lifeline discount and de-enrollment from the Lifeline Program.

### **Additional Lifeline Program Information**

The Lifeline program is limited to one benefit per household, consisting of either wireline or BIAS. A household is defined, for purposes of the Lifeline program, as an individual or group of individuals who live together at the same address and share income and expenses. Lifeline is a government benefit program, and consumers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be barred from the program.
